

EDUCATION	Institute for Interdisciplinary Information Sciences (IIIS), Tsinghua University <i>B.E. in Computer Science and Technology</i> - Overall GPA: 3.8/4.0. - TOEFL iBT (2026 Band Scale): 5.0/6.0 (Equivalent to 100/120, CEFR C1) - Selected Coursework: Machine Learning (A), Deep Learning (A-), Natural Language Processing (A), Algorithm Design (A+), Operating Systems & Distributed Systems (A), Mathematics for CS & AI (A).	Beijing, China 2024.08 - Present
PUBLICATIONS	An Yan, Huigen Ye, Hua Xu, Jiahao Zhang. Process-Aware LNS for Large-Scale MILP via Context-Enhanced Fine-Tuned LLM-driven Selector. <i>Manuscript submitted to NeurIPS 2026</i>. - Huigen Ye, Hua Xu, An Yan, Yaoyang Cheng. Large Language Model-driven Large Neighborhood Search for Large-Scale MILP Problems. In <i>Proceedings of the 42nd International Conference on Machine Learning (ICML 2025)</i>, Spotlight. - Huigen Ye, Hua Xu, An Yan. LESS: An LLM-driven Efficient Streamlining Solver for Large-Scale Mixed Integer Linear Programming Problems. <i>Artificial Intelligence (Major Revision)</i>.	
RESEARCH EXPERIENCE	Multi-Task Reinforcement Learning for LLM Post-Training <i>Research Intern, Supervised by Prof. Hao Peng, University of Illinois Urbana-Champaign</i> Investigate multi-task RL fine-tuning under training-time sparse masks, studying how task-relevant subnetworks conflict when composed and proposing geometry-aware protection strategies to eliminate catastrophic forgetting while preserving plasticity. Applications of LLMs in Mixed Integer Linear Programming and Combinatorial Optimization <i>Research Assistant, Supervised by Prof. Hua Xu, Tsinghua University</i>	2026.03 - Present 2024.06 - 2026.03
SELECTED AWARDS	Scholarship for Outstanding Scientific and Technological Innovation, Tsinghua University Champion, Huawei Algorithm Competition (University Track) Gold Medal, 2025 Beijing Collegiate Programming Contest Gold Medal, 10th China Collegiate Programming Contest (CCPC), Jinan Site Gold Medal, 40th National Olympiad in Informatics (NOI), China	2025.10 2025.09 2025.04 2024.11 2023.07
SKILLS	Languages: C++, Python (Proficient); Go, Scala, Bash (Familiar). Mathematics: Probability Theory, Stochastic Processes, Abstract Algebra, Combinatorics. Tools: PyTorch, LaTeX, Git, Docker.
